ABOUT ME

I am a passionate and detail-oriented software developer with a strong foundation in [your core skills – e.g., web development, backend systems, mobile applications]. I specialize in building scalable, efficient, and user-friendly applications using technologies such as [list your main tools/languages – e.g., JavaScript, Python, React, Node.js, etc.]. With [X] years of hands-on experience in full-stack development, I thrive in collaborative environments and love solving complex problems through clean and maintainable code. I'm always eager to learn new technologies and contribute to impactful projects.

EDUCATION

Bachelor of Software Engineering
UNIVERSITY OF SRI JAYEWARDENEPURA
2024-2027

EXPERIENCE

- Software Developer
- ABC Tech Solutions, Colombo – Jan 2022 to Present
- Developed and maintained scalable web applications using React.js, Node.js, and MongoDB
- Led a team of 3 developers in delivering a cloud-based inventory management system
- Integrated third-party APIs (e.g., Stripe, Google Maps) and improved UI performance by 30%
- Followed Agile methodology and participated in daily stand-ups, sprint planning, and code reviews
- Junior Web Developer
- XYZ Web Agency, Remote – June 2020 to Dec 2021
- Built responsive websites using HTML5, CSS3, JavaScript, and Bootstrap
- Collaborated with designers to implement modern and user-friendly interfaces
- Assisted in backend development with PHP and MySQL
- Maintained client websites and provided bug fixes and updates
